EDUKID PROJECTS

Each Edukid project links with one or more of the United Nations Sustainable Development Goals. Every project established by Edukid has an overall objective of seeing a world with:

NO POVERTY

ZERO HUNGER

GOOD HEALTH & WELL BEING

QUALITY EDUCATION

GENDER EQUALITY

CLEAN WATER & SANITATION

AFFORDABLE & CLEAN ENERGY

DECENT WORK & ECONOMIC GROWTH

INDUSTRY INNOVATION & INFRASTRUCTURE

REDUCED INEQUALITIES

SUSTAINABLE CITIES & COMMUNITIES

CLIMATE ACTION

LIFE ON LAND

LIFE BELOW WATER

PEACE, JUSTICE & STRONG INSTITUTIONS

PARTNERSHIPS FOR THE GOALS

Edukid focus their work in Africa, South America and Asia.

EDUKID PROJECTS: HOW FUNDRAISING WILL BE ALLOCATED

50%

Fundraising for a project of your choice to support the **immediate needs** of a child from one of the following:

- Emergency projects
- Climate change projects
- Gender equality projects

50%

Fundraising towards a child's **education** to provide the tools for them to **break out of the cycle of poverty**.

You may also choose to allocate the **full 100%** to supporting a child's education.

EDUKID PROJECTS: HOW FUNDRAISING WILL BE ALLOCATED

When you enrol on the Edukid volunteer programme, you will learn how to plan and run a fundraising event to support the international communities that Edukid works with.

One of Edukid's main goals as a charity is to provide education to children who live in chronic poverty. For this reason, when you fundraise for Edukid, **50% of the money raised will be used to support children so that they can access education in Uganda, Cambodia and Peru - you can choose which country you would like to support.**

You then have the opportunity to choose a specific Edukid project that you would like the other 50% of the money to go towards. This can link with a UN SDG that you have been researching or can be a project that you feel particularly passionate about supporting. You can also choose to fundraise the full 100% of the money for educational support in a chosen country.

All of Edukid's projects aim to break down the barriers to education that children face. By working with communities to find sustainable models, we can support children in various areas of their life, we are giving them the best chance possible to receive a quality education and succeed in their future.

50%

of your fundraising can be allocated to the Edukid project of your choice (see details of other Edukid projects below).

50%

of your fundraising will go towards the education of a child living in poverty (see more detail on education projects on p.6)

You may also choose to allocate the **full 100%** to supporting a child's education.

EDUKID PROJECTS

The Edukid projects are split into four categories; **education** projects, **emergency** projects, **climate change** projects and **gender equality** projects.

We want you to choose a project that you would like to learn more about and feel passionate about supporting for your fundraising activities. Every single one of these projects is designed to support the communities we work with, and your help and contribution can make a huge impact.

1. Education Projects

EDUCATIONAL SUPPORT

Raise money to provide a child with educational support in Cambodia, Peru and Uganda.

INCLUSIVE EDUCATION

Support our Inclusive education programme for children with special educational needs and diverse abilities.

UNIVERSITY SCHOLARSHIPS

Raise money to support students through their university degree course.

2. Emergency Projects

CLEAN WATER & SANITATION

Many families we work with don't have clean water to drink. Help us to place water filters and bore holes in villages to ensure our students have access to clean drinking water.

EMERGENCY MEDICAL CARE

Many of the families we work with don't have the funds to be able to seek medical care. Help us to help them stay healthy and prevent and treat diseases.

ESSENTIAL FOOD

Help to provide a daily nutritional meal to pupils enrolled in our programme.

EDUKID PROJECTS

3. Climate Change Projects

SOLAR 4 STUDENTS

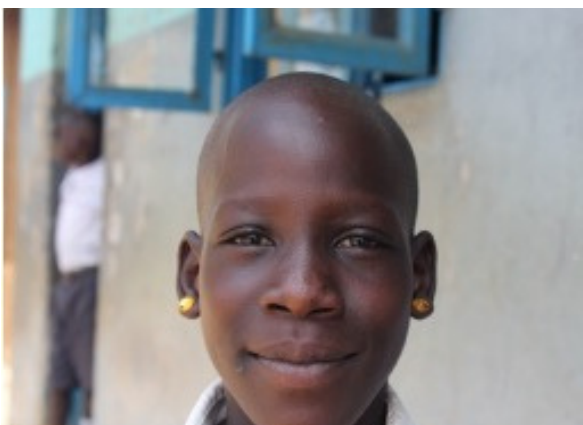

Raise money to provide families with sustainable light so that the children can continue to do their homework once it is dark.

GO BANANAS!

Fund the planting, rearing and harvesting of banana trees that will produce 5 years of fruit and will eventually create enough profit to multiply the number of trees we have, AND make our projects financially self-sufficient.

4. Gender Equality Projects

SANITARY ITEMS FOR GIRLS

Raise money to provide girls with sustainable and reusable sanitary products to help tackle period poverty.

BONGA GIRLS

Support the running of our Bonga girls project which focuses on supporting girls who have become young mothers.

EDUCATION

EDUCATION

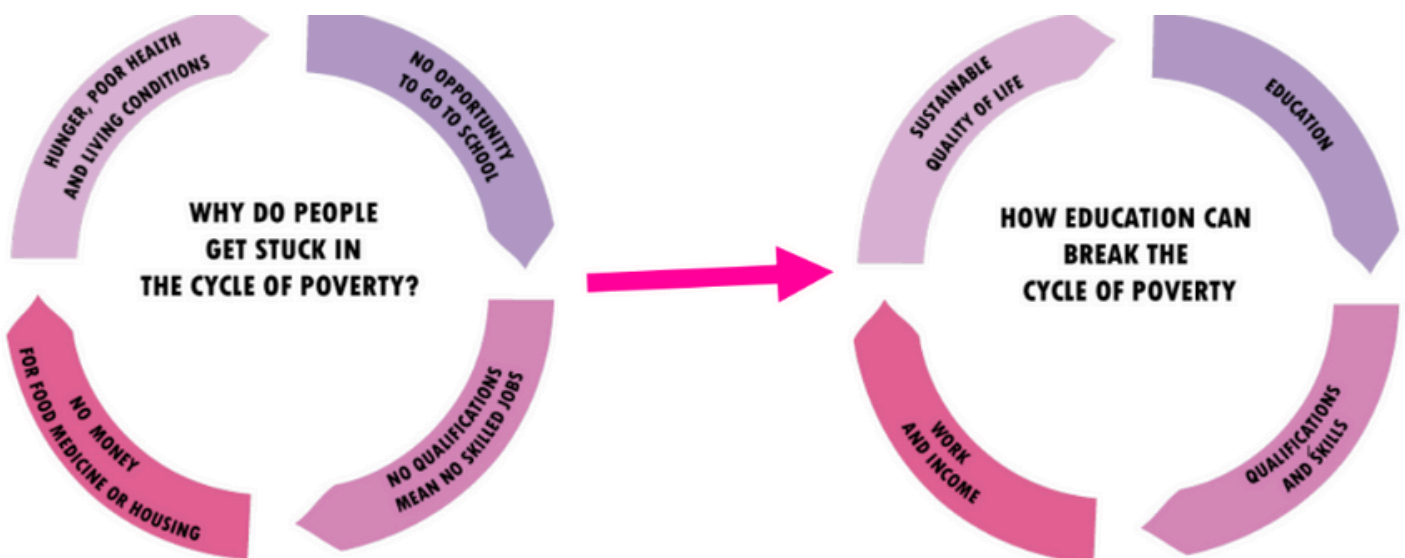

QUALITY EDUCATION

Edukid's objective with each and every project we establish is to break the cycle of poverty. Poverty "is not having enough money to afford daily basic needs" such as food, clean water, decent shelter, clothing and medical care. Poverty robs children of their childhood, preventing them from attending school and instead forcing them into exhausting working jobs at young ages in order to earn a small income. Poverty traps families for generations, in an endless cycle of hunger, insecurity, sickness and hopelessness.

We believe that the most effective, long-term solution to breaking the cycle of poverty is education. However, going to school isn't free always free and so education is only a dream for most.

Help us to provide education for the most disadvantaged children and make their dream of being part of a classroom, learning and playing on the playground instead of working, a reality.

Education provides young people with the opportunity to gain new skills, qualifications and knowledge. It also makes it possible to achieve their aspirations and have independent futures free from the constraints of poverty, impacting not just them, but their entire family.

EMERGENCY PROJECTS

EMERGENCY PROJECTS

Clean Water and Sanitation

This project is available in: **ALL 3 COUNTRIES**

Accessing clean water in an affordable manner, is an extremely difficult task for those living in chronic poverty in the rural communities we work with in Uganda, Cambodia and Peru.

Help us to fund water projects in each of these countries so that the children can drink clean, safe drinking water for free when studying in our classrooms and at home.

According to water aid, 4.8 million people don't have clean water.

**CLEAN WATER
& SANITATION**

EMERGENCY PROJECTS

Clean Water and Sanitation: Your Impact

£5

Ensures one child has access to safe drinking water.*

£15

Ensures three children have access to safe drinking water.*

£35

Ensures a family have access to safe drinking water.*

*Examples of water sanitation that Edukid provide include bore holes / wells / water filters. The above figures are based on the costings for a new bore hole which will support approximately 1,100 people. Your contribution will help to develop a new bore hole to support the communities we work with.

EMERGENCY PROJECTS

Emergency Medical Care

This project is available in: **ALL 3 COUNTRIES**

Many of the families we work with don't have the funds to be able to seek medical care. In many of the areas we work in, diseases and illnesses spread quickly, and if not prevented or treated, can have catastrophic consequences on the surrounding community.

Help us to help them stay healthy and prevent and treat diseases such as malaria, typhoid and covid 19 in vulnerable communities.

We will use your donations in emergency situations to provide access and travel to treatment for community members that need urgent medical attention, and also within projects that take preventative measures against contagious diseases spreading amongst the vulnerable.

Edukid's emergency medical care funds prevented this lady and her nephews and niece from passing away from malaria, typhoid and a number of parasites.

NO POVERTY

EMERGENCY PROJECTS

Emergency Medical Care: Your Impact

£25

Provides 1 student with access to full emergency medical care for a year.

£50

Provides 2 students with access to full emergency medical care for a year.

£100

Provides 4 students with access to full emergency medical care for a year.

EMERGENCY PROJECTS

Essential Food

This project is available in: PERU

The children we work with often spend the day at school with empty stomachs and have very limited diets. Not only that, Edukid discovered that some groups of young children were living away from home and adults, living on small amounts of money and living on as little as one boiled potato per day.

Edukid is providing a daily nutritional meal to all pupils enrolled in our programme so they are able to grow strong, feel happy and healthy, and remain focused on their studies instead of their stomachs!

By raising money for our emergency project: essential food, you will help us, help support young children living in extreme poverty with little food.

ZERO HUNGER

EMERGENCY PROJECTS

Essential Food: Your Impact

£10

Provides 1 student with a nutritional diet for one month.

£60

Provides 1 student with a nutritional diet for six month.

£120

Provides 1 student with a nutritional diet for a whole year!

CLIMATE CHANGE

CLIMATE CHANGE

Solar 4 students

This project is available in: **UGANDA AND PERU**

Many of the children we work with struggle to pass their end-of-year exams and progress to the next school year. On the whole, this is due to not being able to do their homework or revision.

Many of the families Edukid support do not have access to electricity, and so once the sun goes down it is pitch black. This means that the children we support are simply unable to study after school. Some families use paraffin candles to light up their homes so that their children can do their homework, however this produces a dim light. The candles often cause more issues, and the fumes cause damage to the children's lungs. The candles also pose as a fire hazard to the straw roofing of the family home.

Edukid is committed to breaking down the barriers to education that children living in poverty face. In this case, lack of electricity is a barrier to progressing at school and so Edukid has developed a project that provides clean, sustainable light.

We are using this natural resource to provide light to the children we work with through solar panels that can be fixed to the top of homes and can provide up to 8 hours of light for the 12 hours that it is dark!

WATCH THE SOLAR PANEL VIDEO TO FIND OUT MORE:
<https://www.youtube.com/watch?v=BcLP8NQac-8&t=16s>

**AFFORDABLE &
CLEAN ENERGY**

CLIMATE CHANGE

Solar 4 students: your impact

£40	BUYS 1 FAMILY A SOLAR PANEL	
£80	BUYS 2 SOLAR PANELS FOR 2 FAMILIES	
£120	BUYS 3 SOLAR PANELS FOR 3 FAMILIES	
£240	BUYS 6 SOLAR PANELS FOR 6 FAMILIES	

To these families, light means so much more than you might realise:

- It means more precious hours in a busy, short day.
- It means being able to do homework once chores have been done.
- It means better grades and better school attendance.
- It means the opportunity to dream of a brighter future.

Such a relatively small thing can literally light up lives!

CLIMATE CHANGE

Tree Planting

This project is available in: UGANDA

Bananas form one of the steadiest incomes for many people in Northern Uganda. They are easy to grow and provide lots of nutrients. We have bought a small farm with the space to plant banana trees... you might be thinking, why? Well...

1. Did you know that a banana plant produces just one bunch of bananas per harvest?
2. Did you know that once the bunch of bananas is harvested, the tree is chopped down?
3. BUT did you also know that the average banana plant regrows once chopped, every year for 5-6 years? This means for every 1 tree you fund; you provide a harvest every year for 5-6 years.
4. AND Edukid puts all the profits back into planting more banana trees, so that eventually the profit can be used to make our projects sustainable and finically self-sufficient.

Will you help us to empower the communities we work and enable them to become self-sufficient and sustainable through this project?

**SUSTAINABLE CITIES
& COMMUNITIES**

CLIMATE CHANGE

Tree Planting: your impact

YOUR DONATION...	HOW MANY TREES IT FUNDS	PROFIT AFTER 6 YEARS
£52	13 Trees	£260
£100	25 Trees	£500
£150	38 Trees	£760
£200	50 Trees	£1000

If Edukid use the money you donate to plant trees that will then make a profit to plant more trees, we can increase your investment on a huge scale!

INITIAL INVESTMENT	HOW MANY TREES IT FUNDS	ALL PROFITS MADE GOES BACK INTO PLANTING MORE TREES FOR 9 YEARS	PROFIT ON THE 10 TH YEAR
£150	38 Trees	375 trees	£600 indefinitely, every year from then on.

GENDER EQUALITY

GENDER EQUALITY

Sanitary Items

This project is available in: ALL 3 COUNTRIES

Period poverty, or the lack of access to sanitary products due to financial constraints, is a huge issue among the young girls we work with in Peru, Cambodia and Uganda. Period poverty is a term used to describe “a lack of access to proper menstrual products and the education needed to use them effectively”

Due to the inability to buy sanitary items, many girls isolate themselves at home and miss a week of school each month, which poorly impacts on their learning. Additionally, a lack of education regarding periods can significantly impacts young girls and thier health.

Help us to provide sustainable, washable and reusable sanitary items to young girls living in extreme poverty, so that they can have better sanitation, health and access to the products they need each month, making them feel more comfortable attending their lessons.

GENDER EQUALITY

GENDER EQUALITY

Sanitary Items: your impact

£10	Provides a pair of reusable sanitary pads to one girl to ensure they can continue to attend school.
£30	Provides a pair of reusable sanitary pads to three girls to ensure they can continue to attend school.
£60	Provides a pair of reusable sanitary pads to six girls to ensure they can continue to attend school.

GENDER EQUALITY

Bonga Girls

This project is available in: **UGANDA**

The Bonga Girls Project (meaning “Let’s Talk”) is an empowerment programme for out-of-school girls and young women aged 11-19 in Uganda. The young girls enrolled have either never had access to, or have dropped out of the formal education system, as a result of various cultural and life impediments - most commonly a lack of school fees, teenage pregnancy, early marriages and gender inequality.

The Bonga project creates communities of support and reliable social networks for vulnerable girls and women, particularly young mothers who need to support their babies.

The project is a 1-year programme, which focuses on life skills and business skills training, as well as vocational training (tailoring, hairdressing, baking and catering). Ultimately, with the skills and knowledge developed through the BONGA project, these girls become less reliant on external support, and instead become financially independent and self-reliant. As a result, they can then support their young children through education.

GENDER EQUALITY

GENDER EQUALITY

Bonga Girls: your impact

£60

Ensures 1 girl can enrol on the BONGA project for the whole year.

£120

Ensures 2 girls can enrol on the BONGA project for the whole year.
